

Curvelle's 34m Power Catamaran 'quaranta' Wins a Coveted Neptune Trophy at the World Superyacht Awards in Amsterdam.

Released Amsterdam Netherlands, May 4th 2014

Luuk V. van Zanten and the Curvelle Istanbul team were delighted to receive the prestigious Neptune Trophy recognizing motor yacht **quaranta** among the finest new build superyachts delivered in 2013. The ninth annual Oscars of the superyacht world gala event was celebrated in the beautiful Amsterdam Maritime Museum, Het Scheepvaartmuseum, attended by an elite group of superyacht owners from around the globe and the most influential players in the superyacht industry.

The Neptune judges, an independent panel of 20 yacht owners and two industry leaders were impressed by the MY **quaranta** overall, and in particular with the construction quality, styling – the best power catamaran ever, the tremendous flexibility, and the practical uses of design aspects. The judges also pointed out that **quaranta** has one of the best charter layouts they have ever seen and offers excellent value.

Luuk expressed his deep satisfaction, after **quaranta** receiving Yacht International's *Most Innovative Yacht* award in Cannes and the Composite industry award for *Best Composite Yacht Construction*, in Istanbul last year, that she is now recognized among the best superyachts launched in 2013 compared with the other monohulls in her range. This year the **quaranta** was also a winner of the *Reddot design award* in Germany and of the *Golden Award* by A DESIGN, Italy

Quaranta is available for sale and charter, cruising the beautiful Turkish coast this summer. For enquires please contact Luuk V. van Zanten
